

The 2nd International Conference on Econophysics (ICE) will be held from **13th to 14th of September 2013** , at the Lucy Hotel, Kavala.

You can view or download the **Program of the Conference** from [here](#) .

You can view or download the **Conference Proceedings** from [here](#) .

The main goal of the ICE 2013 is to provide an opportunity for academics and professionals from a variety of fields to meet and exchange ideas and expertise.

An additional goal of the ICE is to provide a place for academics and professionals with inter-disciplinary to Econophysics interact with members within and outside their own particular disciplines.

Selected papers will be published in the **Journal of Engineering Science and Technology Review** (JESTR) (<http://www.jestr.org>).

Topics of interest include the following:

- Chaos and Order In Economy
- Nonlinear Dynamics and Econometrics
- Neural Networks and Economy
- Thermodynamic Approach of Economy
- Market as Complex Adaptive Systems
- Evolutionary Economics
- Physics of Risk
- Statistical and probabilistic methods in Economics and Finance
- Econophysics of Stock and other Markets
- Complex Socio-Economic Networks
- Nonadditive Entropy and nonextensive statistical mechanics in Socio-Economics

- Agent-based models: Theory and Simulations
